Byron, here are a few little edits and comments from me with some placeholders for info I can't recall and am too tired to look up at the moment. Without more background about what this is for I think the thing that would help the most is distinguishing what's coming out in the press from what's going on with our testing, which I've done by creating a couple of sub-headings. Let's talk in the morning. - j. -

Hi Chris,

Here is a first cut at the one-pager. See if this matches what you had in mind.

Thanks,

Byron

Janet M request: Pls prepare. Keep concise. Include status for all diesel vehicles we've been investigating plus Mitsubishi.
